Subject: Attention: Hyperion air permit

Gentlemen:

My name is Nicholas Torbert I am a third year medical student at Des Moines University, who has grown up in South Dakota, and plan on practicing medicine in South Dakota when through with my training.

I am writing to request that you ask Hyperion to complete an Environmental Impact Study, through a third party.

I am concerned that a project of this magnitude may have repercussions that may not be fully understood without a study being completed. It is your duty as the department that protects our environment and natural resources to ensure that the people of South Dakota are represented in their desire for our environment to stay as intact as possible.

I also feel that it is important to have a third party do this study to ensure that there is no bias in what they find. I am sure that you have the best for South Dakota's natural resources in mind and you will of course agree that an agency not associated with your department will carry a stronger voice on their report.

Thank you for your time and effort in regards to this matter.

Nicholas Torbert MS-III
